JewelCraft
Crystal Rhinestones
Ocean Beads
Words Worth Alphabet Stamps
Plaid Enterprises Flower Stamp
Tsukineko
VersaMark Ink Pad
VersaFine Black Ink
White Magic Mesh
DMD Paper Reflections Cardstock
Glue Dots

Instructions

Project #1021

Step 1: Trim pink cardstock 1/8 of an inch on two sides and adhere to white cardstock.

Step 2: Using VersaMark Ink pad, stamp flower stamp randomly on pink cardstock.

Step 3: Cut yellow and purple 2 1/2" squares, cut a 3" purple square and cut a 2 3/4"X 4 1/4" purple title block.

Step 4: Cut a pink picture block 4 1/4" x 6 1/4" and the blue pictureblock 4 1/2" x 6 1/2". Cut a yellow block 4" x 2" for the date.

Step 5: Matt all blocks with 1/8" white cardstock

Step 6: Stamp all blocks with flower stamp.

Step 7: Add a Magic Mesh 2" square to corner of picture box.

Step 8: Trim Magic Mesh 1/2" wide and 12" long, adhere to left side of layout.

Step 9: Using Artistic Wire's™ Wire Worker smallest mandrel, make ice blue and silver blue coils the full length of the mandrel. Make another coil by twisting the fuchsia and orchid at the same time, the full length of the mandrel.

Step 10: Gently pull coils to lengthen. Bend and form into flowers, using end of wire to keep flower together. Add to square cardstock by making wire staples*. Adhere to layout.

Step 11: Make spirals with Non-tarnish silver and fuchsia wire. Adhere to flowers with Glue Dots.

Step 12: String blue beads onto black wire. Create title by bending wire by hand. Adhere to title block using wire staples*.

Step 13: Free form wire butterfly, add crystals with glue dots and adhere using wire staples* to date block. Stamp date using black ink.

**Making Wire Staples*

Making wire staples is the best way to adhere wire projects to your page. To make a wire staple, cut 1 1/2" of 24-gauge wire. (Use the same color as your wire project). Using round nose pliers, grasp the wire piece you have just cut in the center. Gently pull down the ends of the wire. You have now formed an upside down U. Poke two small holes into the cardstock where you want to adhere your wire project. Place your wire project onto the cardstock, and put your wire staple through the two holes you have just created. Turn the cardstock over and bend the wire open and against the cardstock. Use the round nose pliers perpendicular to the cardstock to curl the ends of the wire flat against the cardstock. Use as many wire staples as needed to keep your wire project in place.
