Wire Cutters

Nylon Jaw Pliers

Basic Supplies/Tools

Jewelry Clasp

4mm Crystal Bicone Crystals (*various colors*)

Seed Beads (*to match crystals*)

Size #2 Metal Knitting Needles

Instructions

Project #1084

Be sure to knit entire bracelet very loosely. You will work entire bracelet in garter stitch.

- Step 1. Leave wire on the spool and thread about 100 beads on randomly.
- Step 2. Cast on 4 stitches, leaving a 6" tail at the beginning (*you will use this tail to connect the clasp to the bracelet.*)
- Step 3. Knit one row.
- Step 4. On next row, increase one on each end of row (*you will now have 6 stitches*).
- Step 5. Randomly add beads to next row, then knit a row without beads.
- Step 6. Continue this pattern for 6-7 inches (*it will depend on your wrist size and clasp size*).
- Step 7. Decrease one on each end (*you will now have 4 stitches*).
- Step 8. Do not bind off. Cut a length of wire at the end and run this back through the 4 loops. Use this same wire to wire the clasp to the bracelet.
